Due to a large extent the improved port facilities and also to the opening of the Welland Ship Canal, waterborne traffic of Toronto Harbour has been marked by phenomenal expansion as shown by the following table of cargo tonnage:

1935	3,020,130
1940	4,762,292
1941	4,166,951
1942	3,692,017
1943	3,612,215
1944	3,860,731

Two large waterfront industrial areas have been created, almost entirely out of non-revenue producing marsh lands and lands covered by water. These two areas have approximately nine miles of modern dockage and are served by wide paved streets and approximately thirty miles of railway trackage owned or controlled by the Commissioners.

In addition to the improvements effected in navigation, commercial and industrial facilities, the development plans included the reclamation of park and recreational areas, of which Sunnyside Beach near the western entrance to the City has become Toronto's lakeshore playground. And extending easterly from the Humber River to Leslie Street, a distance of approximately 7 miles, is the cross-town waterfront highway made possible by the waterfront development and with, for the most part, a minimum pavement width of 50 feet.

The general taxes received by the City from industries located on lands created by the Harbour development, the benefits arising from the increased waterborne trade of the Harbour and the impetus given thereby to the commerce of the City, apart from the saving to the citizens by reason of low cost transportation, are tangible results of the development.

The two municipal airports, one a combined airport and seaplane base on Toronto Island and the other an all-weather airport at Malton, are administered by the Harbour Commissioners for and at the expense of the City.

The Toronto Island Airport and Seaplane Base is located to the south of the Western Channel entrance to Toronto Harbour, within the City limits approximately one and one-half miles from the Union Station.

The Toronto-Malton Airport is located to the north-west of the City of Toronto. The Airport proper is leased for the duration of the war to the Department of Munitions and Supply. Air service between Toronto and principal Canadian and American cities is provided by regular scheduled flights by Trans-Canada Air Lines and American Air Lines to and from this Airport.

TORONTO—INDUSTRIAL FACTS

Toronto has the largest number of manufacturing plants to be found in any city in Canada, 3,381 factories, representing a diversity of manufacturing that covers the whole alphabet. In this city is located the largest concentration of British and United States branch plants to be found anywhere in the Dominion, in fact the number is more than twice that of the

INDUSTRIAL DEVELOPMENT

CANADA are approximately 3,381 manufacturing establishments in Toronto and suburbs. Toronto has more factories than any other Canadian city, including twice as many branches of British and United States firms. The gross value of manufactured products in 1942 exceeded $1,097,000,000. The capitaal invested in industries approximates $777,000,000. There are in the Toronto area 183,000 industrial employees, and the 1942 manufacturing payroll approximated $280,000,000.

Toronto is firmly established as Canada's leading industrial and distributing city. It is the immediate centre of the largest and wealthiest consuming population in Canada (one-third of the buying power of the entire Dominion market is concentrated within a radius of 100 miles), and it is the centre also of Dominion-wide business and wholesale trade. It is also a favorable base for world-wide export trade, which is one of the outstanding features in Canadian industrial development.

The volume and diversity of Toronto manufacturers provide under normal conditions plentiful and efficient labor, skilled and unskilled, male and female, in fact it is the provincial clearing house for labor.

Toronto has excellent transportation facilities with many sources of raw and semi-manufactured materials in close proximity. Rail, water, highway and air communications radiate from Toronto giving efficient and low-cost distribution.

Splendid industrial sites are available in the harbor, in many other zones within the city limits and in its industrial suburbs. It has electric power at cost and it is one of the financial centres of the North American continent.

The Toronto Industrial Commission, Canada Permanent Building, 320 Bay Street, Toronto, is the official industrial commission for the City of Toronto and suburbs.

Many other statistics show how rapid and sizeable has been the city's business growth. Consider the large increase in the number of telephones—the pulses of city commerce in Toronto.

The increase in the number of telephones in service since 1923 is as follows:—
